Carpenter named Director of Curriculum

PAW PAW - As the new director of curriculum and instruction for Paw Paw Public Schools, Susanne Carpenter brings over 30 years of experience in public education. She has served as a su-perintendent, elementary principal, instructional specialist, teacher and adjunct professor. Known for her leadership in curriculum design, MTSS (multi-tiered system of supports), instruc-tional coaching and school-community partnerships, Carpenter is committed to fostering student growth and academic excellence.

"My vision as director of curriculum and instruction is to foster a culture of high expectations, in-novation and support for all learners," Carpenter shared. "I am committed to ensuring that every classroom is a place where students are engaged, challenged and cared for."

"I'm excited to begin this new chapter and look forward to working alongside students, parents, staff and the entire Paw Paw community," she added. "Together, we can create a system where all students thrive."

"I am thrilled to officially welcome Susanne Carpenter as our new director of curriculum and instruction," said Paw Paw Public Schools Superintendent Jeremy Davison. "Susanne brings a pas-sion for teaching and learning, and I am confident she will help us reestablish a strong focus on academics and instruction across the district."

Paw Paw Public School Superintendent Davison named Paw Paw Lions Club "Lion of the Year"

PAW PAW - On Wednesday, June 18, Paw Paw Public Schools Superintendent Jeremy Davison received two prestigious awards for outstanding service to the Paw Paw Lions Club and the local community.

The "Lion of the Year" award is a distinguished honor reserved for a club member who goes above and beyond to serve the club and the community.

The second award, the Ken Lautzenheiser Fellowship Award, was named after legendary Lion Kenneth E. Lautzenheiser, who served the Lions for 45 years and was elected to the Board of Lions Clubs International. This award was created in response to a definite need in Michigan for an organization that could address the medical needs of individuals who had no insurance and nowhere else to turn. Through the local Lions Club chapters, it recognizes outstanding individuals who are committed to unselfish and dedicated service to humankind.

One way Paw Paw Public Schools, through partnerships with the Paw Paw Lions Club and the Lions of Michigan Foundation, addresses the medical needs of individuals in the community is by offering vision screening to all district students. Through "Operation Kidsight," if the screening detects a vision problem, students are referred to an eye care professional for further testing. If glasses are deemed necessary and financial assistance is needed, the Paw Paw Lions Club will cover the cost of the glasses.

This unique partnership, along with many other community collaborations, are innovative ways Superintendent Davison and the students and staff of Paw Paw Public Schools are fulfilling the district's vision: To be united with our community to build success.

Rick Zuiderveen and Bruce Miller were co-recipients of the Melvin Jones Fellow Award, which recognizes dedicated humanitarian services.

Paw Paw Service League makes $2,000 for ballistic shields for police department

By Paul Garrod
Staff Writer
news4garrod@gmail.com

PAW PAW - The Paw Paw Service League recently made a $2,000 contribution to the American Legion Post 68, to purchase Ballistic Shields for the Paw Paw Village Police Department.

GVA (Gun Violence America) reported 971 cases of school shootings across the United States in 2024, (gun was brandished, fired, or bullet hit school property) with many of them having no victims or injuries. The database has tracked 112 school shootings in which a victim was injured or killed. The deadliest incident took place in the Atlanta suburb of Winder on Sept. 4 at Apalachee High School and left four dead.

The American Legion Post is seeking contributions from Paw Paw area residents to purchase three shields (one for each patrol car) According to Bob Adams, Paw Paw American Legion Post 68, Operation Shield Chairperson, the reason for three shields for the police department is "because they always have a car on the road in Paw Paw and it would only take three minutes to respond to any school."

The project has the support of the Paw Paw Village Council.

The Paw Paw Service League has been in existence for approximately 40 years, and it is estimated that the group has given out $400,000 during the past four decades, roughly $10,000 a year. Two recipients of financial donations from the Paw Paw Service League include the Paw Paw Community Chorus and the Paw Paw Art League.

Checks can be made payable to PNC Bank and mailed to the American Legion, PO 19, Paw Paw, MI, 49079, Bob Adams, Chairperson.

Lawton sets millage rate, equal to last year

LAWTON - Following an earlier public hearing with no public comment, the Lawton Village Coun-cil on June 10 approved a motion to establish the 2025 millage rates. The millage rate is equal to last year's millage rate (16.9322 mills), due to the Headlee Amendment and will generate a 0.93 percent increase in the net operating tax revenues for the Village of Lawton.

President Josh Appleby said that the Truth in Taxation hearing is completed each year to allow for the inflationary increase which will total $6,970.

In another area, the village council approved Ordinance 01-2025: Rental Inspection Zoning Ordinance. The village Planning Commission had reviewed and recommended the changes to the zoning ordinance.

Village Council Trustee Judith Peterson provided a presentation of the Planning Commission's findings on the ordinance. Peterson recommended two changes to the ordinance to 1.10 and 1.11 should be removed due to redundancy between the planning consultant and the attorney.

Peterson made a motion to adopt Ordinance 01-2025 with the removal of sections 1.10 and 1.11 from the proposed ordinance. It was approved in a roll call vote.

The village council also approved in a roll call vote, Ordinance 02-2025: Rental Inspection Ordinance.

Following a discussion, Village Council President Appleby made a motion to pass Ordinance 02-2025 with corrections to 155.3 item D to state that the requirements of subsection (A) will take effect Jan.1, 2026, section 155.4 section D to state that the requirements of subsection (A) take effect on Jan. 1, 2027, and an amendment to 156.4 (G) to state that unless revoked, a license is valid for three years from the date of issuance.

The Lawton Village Council also approved in a rollcall vote Ordinance 03-2025: Cell Tower/Solar Panel Zoning Ordinance. The village Planning Commission reviewed and recommended the change to the zoning ordinance. Peterson made a motion to adopt ordinance 03-2025 with the addition of sections 11.13-11.18 to be added to the ordinance.

Two vehicle "violent collision" claims life of area resident

Van Buren County Sheriff's Office Uniform Response handled a two vehicle PIA (personal injury accident) in Antwerp Township. "It was found that a vehicle exiting a parking lot pulled out in front of a vehicle that was approaching, hence causing a violent collision. The driver in the oncoming vehicle lost her life due to the crash. The passenger in that vehicle and the at fault driver were transported to the hospital for their injuries," said Van Buren County Sheriff Daniel Abbott. The accident remains under investigation and will be sent to the Van Buren County Prosecutor's Office once it's completed.

Uniform Response handled a domestic assault between two brothers in Bangor Township. The report was sent to the Van Buren County Prosecutor's Office for review.

Uniform Response handled a domestic assault/strangulation in the City of Gobles. The suspect fled prior to deputies' arrival. They were unable to locate him and are still actively looking for him. The report was sent to the Van Buren County Prosecutors Office for review (seeking arrest warrant).

Dispatch received a call from a motorist on Interstate 94 Highway in Hartford Township about a possible intoxicated driver. Deputies were able to find the vehicle, observed the poor driving, and got it pulled over. After investigating the driver, she was lodged for operating under the influence of alcohol.

"Our office teamed up with McDonald's at various locations for a Summer Safety Initiative. Our Marine Division is handing out vouchers to kids wearing life jackets, leading by example to help encourage the use of life jackets while boating. We are excited to be able to bring a positive to the kids by rewarding them with a free ice cream cone voucher and it also helps show them law enforcement is here for them in a positive light. A big thank you to McDonald's for working with us on this initiative, said Sheriff Abbott.

Uniform Response handled a larceny of cell phones in Almena Township. Deputies found through the investigation that two suspects entered a business asking for a tool for help on their car and when the victim wasn't looking, they grabbed two cell phones off the counter and went back to their car. Two more individuals were in the vehicle in the parking lot and the plate was removed. They were confronted and during the confrontation, one phone was recovered. The suspects fled the scene with the other cell phone. The victim deactivated the phone. "Photos were put out on our office Facebook page and one of the suspects was immediately identified. Deputies are working on the case and after it's completed, the suspects will be charged for the incident. Thank you to everyone who contacted our office identifying the individual.," said Sheriff Abbott.

Uniform Response handled a possible theft in progress in Paw Paw Township. The property own-ers observed people walking on their property on their security cameras. Deputies located three individuals there and inquired about them being there trespassing. The female suspect was lodged on a felony warrant and CCW (carrying concealed weapon). "Nothing was taken during the incident, and it's believed that it was because deputies arrived on scene before they did," said Sheriff Abbott.

Uniform Response handled a suspicious call in Geneva Township. The call came into dispatch about three kids shooting a gun in front of a residence that they don't belong at. "Deputies located the three kids, and it was found they were shooting off bottle rockets. No firearm was located, and they were spoken to about what they were doing," said Sheriff Abbott.

Uniform Response handled a UDAA (unlawful driving away automobile) in the City of Gobles. "A 2006 Kawasaki Eliminator motorcycle, blue in color with saddle bags, with the plate of VU259 was taken from a residence. Anyone with any information is asked to call our office," said Sheriff Abbott.

Riverwoods Property acquisition moving forward

James Windell

The South Haven Area Recreation Authority (SHARA) received the news from Recreation Administrator Scott Reinert that the Riverwoods site is closer to being purchased.

Riverwoods is a site owned by the Department of Natural Resources (DNR). Located adjacent to the Kal-Haven Trail and Black River in South Haven Township, the DNR has owned the 49-acre site for more than 10 years and while the DNR had plans to develop the property for lodging and camping, that has never worked out.

In 2023, SHARA approached the DNR about allowing SHARA to purchase and develop the site as a community recreational park. After discussion with the DNR, it was agreed that SHARA would purchase the property. The initial step in the process was when SHARA submitted a Land Transfer Application to the DNR. All necessary application documents were completed in 2024 to comply with the DNR Land Exchange and Sale program.

Last year, Ross Stein, SHARA Board Chair, expressed his enthusiasm, stating, "We are thrilled that the DNR is working with SHARA on the sale of the Riverwoods property. The addition of this conveniently located 49-acre site to SHARA's growing recreational assets will provide a great location for recreational features clearly desired by the community."

During the June 17, 2025, meeting of the SHARA Board, Reinert said he was optimistic that SHARA would have the $343,750 needed to buy the Riverwoods property. According to Reinbert, South Haven Township was able to secure a $130,000 loan which will ensure that SHARA can complete the purchasse of Riverwoods.

"There are only two steps left," Reinert told the Board. "The first step is for the Natural Resources Commission Committee to issue final approveal of the sale and the second step is for the Director of the DNR to sign off on it."

Reinert anticpates that these steps will happen soon. "I would anticipate we'll own the property by early September of this year," he said.

The plan for the site includes restoring the covered bridge, putting in a parking lot, adding a boardwalk, bulding a dog park, and consttucting pickleball courts, as well as completing a one-mile trail.

Fundraising for work on the site will take place later this year. Reinert reported that the work on the site can be completed in the next several months after the purchase is completed.

"I expect that we can open Riverwoods next summer so people can enjoy it," Reinert said.

Bangor mayor honors two citizens

By James Windell

Bangor Mayor Lynne Farmer honored two outstanding local citizens at recent Bangor City Council meetings.

On June 16, 2025, the mayor presented a proclamation to Bob Emmert, one of the original members of the Bangor Cemetery Committee.

Emmert's involvement with the Bangor Cemetery goes back many years, including his research and writing of his book "Bangor: Our History in Photographs," which was published in 2004.

"Bob lives across from the cemetery and he was instrumental in getting our semi-annual cleaning of the cemetery going," Farmer said. She said that his love for the cemetery includes his many walks through the cemetery to check on leaky spigots, downed tree branches, and his faithful cleaning and straightening of gravestones. Among the improvements Emmert has had a hand in were the project to replace old pillars, installing the new Veterans memorial in Arlington

Hill West, the refurbishing of the civil war cannon, and the constructing of a foundation for the cannon.

Emmert was involved in an initial fundraiser that brought in money for improvements in the cemetery and he lent a hand in the millage for maintenance of the cemetery. "We raised $10,000.00 in the first year and have raised over $25,000.00 in total," said Farmer, "and Bob helps us get the millage passed each time it comes up for renewal."

BOB EMMERT ACCEPTS PROCLAMATION FROM MAYOR LYNNE FARMER

In honor of Emmert, the City of Bangor and the Bangor City Council declared June 16, 2025 as "Bob Emmert Day" in appreciation of his many years of service to the Cemetery Committee.

At a Bangor City Council meeting on June 2, 2025, a proclamation by Mayor Farmer was presented to Rosemary Weiss.

In 2007, Rosemary Weiss was a founding member of a "Relay for Life" team named "RailRoad Renegades." The team was formed to honor a man who was battling cancer.

By 2009, Weiss took over as team leader and for the next 10 years led the Relay for Life team as they transitioned to being involved in "Gold Together," the American Cancer Society's childhood cancer initiative.

Farmer describes Rosemary as a person who has a servant's heart. "She is always willing to help anyone with a need, and she saw cancer as a big need," Farmer said. "She has always helped in any way she could to raise funds for cancer."

During the 10 years as head of Relay for Life in Bangor, Weiss orchestrated ceremonies and events that brought attention to cancer and raised money. She helped organize and run the Bake Sales for Cancer for many years in the community and made sure that baked goods and goodies were abundantly available to sell for the cause of ending cancer. "For many years she was the person who put on the Relay for Life in Bangor," the Mayor said. "The bake sales were always before a holiday and people in Bangor loved them and gave generously."

Weiss has been battling bone cancer for the past year. "It is amazing that she has done so much in her life to help others with their struggles with cancer and now she has that very need herself," Farmer said. "It breaks my heart as her friend to know I can't do for her what she has done for so many others. Saying she has done so much good for others with cancer is an understatement. Her life is a testament to the fight against cancer."

Bangor Vikings Trap Team places at state tournament

On Saturday June 14th, 2025, the Bangor Vikings Trap Team traveled to the Michigan Trapshooting Association grounds to compete in the 2025 Michigan State High School Clay Target League's State Tournament. This is the team's fourth visit to the tournament. Of the 14 members of the team, they had 9 qualify for Varsity (19+ average), 2 for Junior Varsity (15-18.99 average), and 3 for Novice (0-14.99 average). They were able to have a 5-person team to compete in the Varsity classification. The Varsity team (Abi Kruger, Jack Loomis, Porsha Tomsa, Drake Dittlinger, and Hayden Robertson) shot well (436/500) placing 23rd out of 29 Varsity teams, and 27th our of 58 total teams. All 14 team members shot at, or above, their season average.

For senior, and team co-captain, Abi Kruger, the event was bittersweet. Abi is one of the original members of the team. In her last High School Tournament, she led the team with a 93/100, ending in a two-way tie for 3rd place in the Varsity Female division. Abi will continue competing in shooting sports with the University of Olivet Clay Target Team this Fall.

The following awards were earned during the 2025 Spring League Competition:

Okay with bunker busters if they don't lead us to war

MIKE'S MUSINGS

MIKE WILCOX
PUBLISHER

Dropping bunker buster bombs in Iran last week will go down in history as one of the best military operations ever. Our planes went to and left undetected after dropping the world's biggest bombs in an effort to destroy Iran's nuclear facilities built underground into the side of a mountain. We didn't target civilians or buildings, only nuclear facilities and the mission was wildly successful, so says our administration.

We had no choice, say proponents. Iran was going to have nuclear capabilities within months, and no one in the region, particularly Israel, could stand for that. Iran is a rogue regime, creating chaos all over the world.

Although I marvel at our military's operation, as well as what Israel had done in the last week, I'm concerned about the repercussions and the possibility of a protracted war. History has taught us in Viet Nam and Afghanistan, the United States cannot get involved in this type of war.

Supporters of the strike don't necessarily advocate for a full-blown war. Instead, they envision a limited, precise operation targeting critical facilities, especially those involved in uranium enrichment and weapons development. They argue such a move would buy time, disrupt Iran's momentum, and demonstrate the international community's red line is real. I can buy in to this. A quick operation is terrific- just no boots on the ground.

But there are compelling arguments against the bombing and any further action. Retaliation, civilian casualties and regional stability are often stated. Others wonder why we didn't try to continue diplomacy. There are now reports of sleeper cells in the U.S. that might attack some of our facilities. I suspect Iran will respond in some way, but I'm not sure they have the capability to do too much damage.

I would love nothing more than regime change. The fundamentalists that have ruled Iran and its people with an iron fist for nearly 50 years needs to change. 50 years ago, Iran was a progressive country adopting Western culture and ideals, but that ended when protests forced The Shah to escape to exile and the fundamentalists to take over.

However, regime change is not our concern. That is up to the Iranian people. Most Iranians oppose the fundamentalists, but they fear speaking out. Speaking against the regime could result in imprisonment, or death. But now, the regime is barely hanging on with most of their military might and leaders destroyed. It is possible that new opposition leadership will emerge from within. We can only hope.

But for those who support what we accomplished with the bunker busters, the greater danger lies in hesitation—waiting until Iran has crossed a nuclear threshold that cannot be undone. Whether or not one agrees with this viewpoint, it is a perspective rooted in a hard-nosed assessment of national security, historical precedent, and the limits of negotiation.

The question is no longer whether Iran's nuclear program poses a risk—but whether the cost of stopping it through force outweighs the cost of letting it continue. We chose action, versus appeasement, and I believe history will prove our actions to be right.

UPDATED: Since writing this opinion piece it appears President Trump has brokered a ceasefire between Israel and Iran. Our bunker buster strike did not cause an escalation of the war but actually brought the two sides to the negotiation table. Stay tuned. This is a developing story.

Life as Performance Art

G CORWIN STOPPEL

The most popular male vocal duet in 1930s England was Flanagan and Allen. Their songs were light, filled with a bit of syncopation, close harmony and left audiences smiling with a renewed sense of hope.

Among their big hits was "Underneath the Arches," the story of two homeless and unemployed men who "slept rough" underneath the railroad arches. Another was "Run, Rabbit, Run" based on the food rationing during World War II.

In 1939, at the end of the Great Depression and just as Bavarian corporal Adolph Hitler was about to start the war, Flanagan and Allen brought out a new song "Are You Having Any Fun?" This one is timeless and applies today.

Many of us of a certain age grew up learning the fun had to be earned. Get your homework done first, then if there is time left you can go out and play. Get your chores done. then you can join your friends playing ball.

We also learned valuable lessons about thrift, saving our money and the need to make wise choices. Delayed gratification was a virtue. These were drilled into us in hopes that we would grow up to be thrifty, hardworking, patriotic Americans who would shove it to the Commies.

Sometimes, however, we learned those lessons too well. Like most self-destructive practices, it started out small and harmless.

Decades ago my classmate Blake saw a Charles Atlas ad in the back of an outdoors magazine. A person could sign up with him, get some special formulas and an exercise. In a matter of months anyone could become a muscle-bound hunk who would have a great social life.

Blake's parents told him if he wanted to do this, he had to earn the money.

He got some after school and weekend jobs, mainly lawn and garden work, then splitting firewood. He saved all his money until he had enough to become a young Charles Atlas. All that hard work and fresh air not only put money in his sock drawer, but created the body he wanted without having to spend his money.

So far, so good. By then, something had begun to take over his mind and body. He liked the money, but he truly hated parting with it because he had worked hard to earn it. Blake became a miser.

His mother thought it might be a good idea if he had a social life. His answer was, "It would cost me money." When his mother offered to pay for a few dates, Blake suggested she give him the money so he could put it in his bank account. When she said he needed to have some fun, he told her that reading his savings deposit book was what he enjoyed most.

In short, Scrooge had nothing on Blake. I don't know if there was or ever will be a happy ending to his story, because he apparently has narrowed his life down to making and holding onto all of his money.

There are other stories like his. One of the most notorious misers was Hetty Green, the infamous "Witch of Wall Street." She was born into a rich Massachusetts family in 1834 and after her brother's death, her father was determined she would take over the family fortune and expand it. She did, becoming their accountant at age 13. She made a fortune, and was either held in high esteem or hated.

She married well and, to make sure she kept her own wealth, forced her fiancé to sign one of the first pre-nuptial agreements. When he died quite young, she became even more wealthy — and bizarre.

Hetty wore nothing but black mourning clothes until they were little more than rags. Soap and water were used sparsely and her meals were very plain. By the time she died in 1916, she had converted an original fortune of $6 million into more than $100 million in liquid assets, and even more in real estate. All told, she was worth more than $2 billion in today's money.

The entire estate was split between her two daughters, with nothing left for charity. or anything else. She also left instructions about never invading the principle and to use their money to make even more.

According to the newspapers, her daughters knew how to have fun and went through a sizeable chunk of the estate before they died. Good for them.

That takes us back to Flanagan and Allen. "You silly old so and so, with all your dough, are you having any fun? What are you getting out of living?" their song asked. "What good is what you've got if you're not having any fun?

"Are you having any laughs? Are you getting any loving? If other people do it, so can you, have a little fun," the duo sang.

Sometimes we too closely associate having fun with spending money. To be sure, that can be the case. But let's say your dream has always been to go to a professional ballgame.

If you want the major leagues, you have three easy choices: Detroit or the two teams in Chicago. By the time the game is over you may have gone through a lot of money. And much of the time if you look closely at the players, they don't seem to be having a lot of fun playing the grand old game.

But go to a minor league game, or some of the local baseball and softball league games, and the players are having fun. So is the crowd.

If art is your hobby, going to big museums can be costly, but every community with a gallery or two has openings and showings of new artists.

One evening a month Ox-Bow School of the Arts in Saugatuck opens up for the public, where guests can wander in and out of studios or buy new art for a reasonable price. Add a stroll through all of the local galleries and summer art shows.

The list goes on. Being intentional about making time to have fun is the real ticket to a balanced life.

Here's an idea: Have some fun by annoying people with the question, "Are you having any fun?" or "Are we having fun yet?"

Roethlisberger lacrosse standout

By John Raffel
Correspondent

MATTAWAN — JT Roethlisberger was a junior this season for Mattawan's lacrosse team and is looking forward to his senior season.

This was his third year for the lacrosse team.

"We played really well together," he said. "Our defense played well the whole season. We've played together for awhile."

This was the best record the team has had and went the farthest in school history before losing 20-11 in the state semifinals to Country Day.

"During the first half we played really well together," Roethlisberger said. "We got a little bit depleted when we got a penalty and they scored. It was a hard fought battle. I don't think the score reflects how well we played."

Roethlisberger played half the team's games at goalkeeper.

The key to being a good goaltender "is being mentally strong," he said, "allowing a goal to go in and let it go."

He has been a goalkeeper for six seasons. He thought the best game he played was in the regionals.

"We can have another good season next year," he said.

JT Roethlisberger is also a skier and tennis player.

Gobles cheerleaders enjoyed huge success

GOBLES — When the 2024-25 sports season finally came to an end, freshman Bella Laughlin could safely say it was a good one.

Laughlin also performed in competitive cheer during the seventh and eighth grades. She found cheer at the high school level to be more challenging, demanding and time consuming.

"We did a couple of camps for it here and there during the summer," Laughlin recalled.

She has been a flyer for Gobles cheer.

The key to being a strong flyer, Laughlin said, "is to keep a strong core," and to be trusting and relying on her teammates. She was in all three rounds.

"We had a really good strong team," Laughlin said.

Fourth place was the highest Gobles finished at a meet

During the season, "we improved a lot. On a scale of one through 10, I would say we improved from a 2 to like a 10."

All aspects of cheer got better for the Gobles team, Laughlin said.

The third round was the best, Laughlin said. Round 2 is shorter round, "and we didn't have a lot of time to do a lot of things with it, she added.

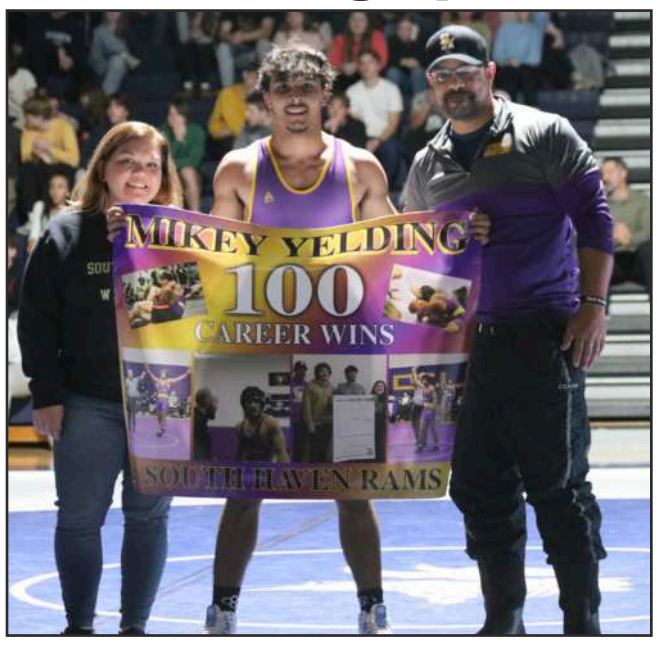
Laughlin indicate several seniors will graduate for Gobles and it will be a building year of sorts.

"I feel we can do just as well," Laughlin said. "We need a lot more practice."

Laughlin and is also in volleyball and track. She indicated cheer and volleyball are her top ones. She's a hitter in volleyball. She does short distances in track and also long jump. She played softball in middle school and wanted to join her friends on the track team in high school.

"I think I'll do well in the long jump," she said coming into the season. "I've been working on it and am pretty good in it."

South Haven senior celebrates strong sports career



Mickey Yelding celebrated his 100th career wrestling win this season.

By John Raffel
Correspondent

SOUTH HAVEN — He graduated from South Haven this spring but Mikey Yelding made quite an impact on the sports program, and particularly in wrestling.

Yelding was a 150-pound senior for South Haven's wrestling team.

"The biggest highlight for me and the team this year was sending four wrestlers to state and having them all place," Yelding said. "My keys for success were having good support from my family, fans, coaches and teammates. My favorite match of the year was my third match against Landon Vance-Coulson. In our third match, he beat me by a big margin. Then in our next match, I beat him by a large margin. In our third match we both went out there fifth and nothing to lose in the blood round at state. I came out on top 10-6."

"Yelding wrapped up his high school career as a state placer, taking sixth place in ivision 3 at 150 pounds," coach Brad Adamson noted. "Mikey finished this season with a 42-12 record. He had an impressive 124-65 overall record with a whopping 290 career takedowns. Mikey was also a team captain, two time district champion and three-time conference place winner for the Rams."

"Next year will be somewhat of a rebuilding year for the team," Yelding said. "The team will have to find new leaders. I'm not sure what role I'll have with this team next year but I'll definitely be around. My strengths on the mat were neutral wrestling. There weren't many people who could beat me neutral.

"I'm looking to improve my wrestling on the ground. That's the one aspect that's always held me back. Wrestling is my favorite sport. Wrestling is really the only sport I've ever taken seriously."

Mattawan lacrosse player headed to St. Johns

By John Raffel
Correspondent

MATTAWAN — Mattawan advanced to the state semifinals in lacrosse this season and among the reasons for that success was the standout play of Brody Hergott.

It was his senior season.

Mattawan lost to Detroit Country Day 20-11 in a state semifinal game.

"They're a very talented squad," Hergott said. "We came out and played well. We shocked them a little bit at the start. I don't think they were ready for us to come out firing like that. But unfortunately we made a couple of mistakes.

"We gave them a chance to get back into the game and that's what they did. They were a toned team with as great of a roster they had. We did the best we could and fought hard all the way to the end. I'm proud of the team for that."

Mattawan had an 18-2 record.

Hergott played varsity lacrosse for three yeas. He moved to Mattawan his sophomore year and played varsity ever since."

He's played lacrosse since the elementary grades.

"I played midfield most of my life," he said. "Up until a few years ago I started playing attack in high school. Midfield is a little bit more about getting up and down the field and playing a little bit of defense and paying some offense as well. Attacking is all offense and taking on more of a scoring role and quarterback role compared to midfield.

"I think I was able to secure the ball well and it was nice to be on the field . I was able to be a good leader of the offense. We had the team's first playoff win in 23 years over Lansing Everett."

Hergott had quite a few goals for the season and two in the semifinals.

Hergott also enjoys football which he said was his second sport behind lacrosse.

He will be studying finance and playing lacrosse at St. John's University in the fall. He committed during his 11th high school season.

"I'm super excited to get out there," Hergott said.

2024 WATER QUALITY REPORT FOR THE VILLAGE OF DECATUR

WATER QUALITY DATA

Water quality monitoring is a crucial aspect to protecting water resources. Under the Clean Water Act, state, tribal and federal agencies monitor lakes, streams, rivers, and other types of water bodies to determine water quality condition. The data generated from these monitoring activities help water resource managers know where pollution problems exist, where to focus pollution control energies and where progress has been made.

ANNUAL WATER QUALITY REPORT

Reporting year: 2024

This report covers the drinking water quality for the Village of Decatur for the 2024 calendar year. This information is a snapshot of the quality of water that we provided to you in 2024. Included are details about where your water comes from, what it contains, and how it compares to Environmental Protection Agency (EPA) and state standards.

Your water comes from three groundwater wells located within the Village Limits. Well #2 is 116' deep, Well #3 is 192' deep, and Well #4 is 192' deep. All Wells draw from a Drift clay-covered aquifer system. Our water is pumped fresh from these wells, and no treatment is utilized at this time. The State of Michigan has performed an assessment of our source water. Such assessment was completed on all of the sources of drinking water across the country that provide water to 25 people or more. Each system's Wells were given a rating based on how susceptible the source water is to contamination from identified sources. This will help communities understand the potential threats to their water supplies and prioritize needs for protecting the water from contamination. This does not mean that your water is or will become contaminated. The possible susceptibility rating ranges from low to very high; the rating for the Wells in the Village of Decatur is moderately high. A complete copy of this report is available at the Decatur Village Hall.

The Village of Decatur is making efforts to protect our sources by participating in a Wellhead Protection Program, completed in September 2015.
If you would like to know more about the report, please contact The Village of Decatur.

Contaminants and their presence in water:
Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800) 426-4791.

Vulnerability of sub-populations:
Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons, such as individuals with cancer undergoing chemotherapy, organ transplant recipients, people with HIV/AIDS or other immune system disorders, some elderly, and infants, can be particularly at risk from infections. These people should seek advice about drinking water from their healthcare providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the EPA's Safe Drinking Water Hotline (800) 426-4791.

Sources of drinking water:
The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. Our water comes from wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- **Microbial contaminants,** such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- **Inorganic contaminants,** such as salts and metals, can be naturally occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- **Pesticides and herbicides,** which may come from a variety of sources such as agriculture and residential uses.
- **Radioactive contaminants,** which can be naturally occurring or be the result of oil and gas production and mining activities.
- **Organic chemical contaminants,** including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.

To ensure that tap water is safe to drink, the EPA prescribes regulations that limit the levels of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water which provide the same protection for public health.

WATER QUALITY DATA

The table below lists all the drinking water contaminants that were detected during the 2023 calendar year. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done January 1- December 31, 2023. The state allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. All of the data is representative of the water quality, but some fields are more than one year old.

Terms and abbreviations used below:

- **Maximum Contaminant Level Goal (MCLG):** The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **Maximum Contaminant Level (MCL):** The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
- **N/A:** Not applicable.
- **ND:** Not detectable at testing limit.
- **Ppb:** Parts per billion or micrograms per liter.
- **Ppm:** Parts per million or milligrams per liter.
- **pCi/l:** picocuries per liter (a measure of radioactivity).
- **Action Level (AL):** The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.
- **Maximum Residual Disinfectant Level (MRDL):** The highest level of a disinfectant allowed in drinking water. There is convincing evidence that the addition of a disinfectant is necessary for control of microbial contaminants.
- **Treatment Technique (TT):** A required process intended to reduce the level of a contaminant in drinking water.

**** Unregulated contaminants are those for which EPA has not established drinking water standards. Monitoring helps EPA to determine where certain contaminants occur and whether it needs to regulate those contaminants.*

Information about lead: If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Village of Decatur is responsible for providing high-quality drinking water but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead

Water Service Line Investigations: As per the amended Michigan Safe Drinking Water Act, 1976 PA 399, water supplies must create and maintain a Complete Distribution System Materials Inventory (CDSMI) and submit it to EGLE by January 1, 2025. Part of the CDSMI is the investigation of individual water service lines. To get a better understanding of the water service lines in a community, EGLE has developed a randomized testing method based on the number of total services. Each randomly selected home must be physically verified externally, at the curb stop, and internally, where the service enters the home. All community water supplies with lead or galvanized service lines previously connected to lead (GPCL) must replace those service lines at a rate averaging 5% per year and must be completed by 2040. Preliminary investigations occurred within the Village from Summer 2023 to Spring 2024 and are complete.

Our water supply has 285 lead service lines and zero service lines of unknown material out of 692 service lines. If you would like to know more about this report, please contact: John Small, Village of Decatur, 114 N. Phelps St., Decatur, MI 49045, 269-423-6114, village@decaturmi.us.

MONITORING AND REPORTING TO THE DEPARTMENT OF ENVIRONMENT, GREAT LAKES, AND ENERGY (EGLE) Requirements: The state and EPA require us to test our water regularly to ensure its safety. We met all the monitoring and reporting requirements for 2023. We will update this report annually and will keep you informed of any problems that may occur throughout the year, as they happen. Copies are available at the Decatur Village Hall (114 N. Phelps St. Decatur MI). This report will not be sent to you unless requested. We invite public participation in decisions that affect drinking water quality. Village of Decatur Council Meetings are held on the first Monday of every month at 7:00 pm at Village Hall. For more information about your water, or the contents of this report, contact Jimmy Ebeling at 269-423-6114 or go to the Village of Decatur Website to view the current and prior Decatur CCRs (https://decaturmi.org/how_do_i/forms.php#outer-77). NOTICE OF MORTGAGE FORECLOSURE SALE
This firm is a debt collector attempting to collect a debt. Any information we obtain will be used for that purpose.

Notice of foreclosure by advertisement. Notice is given under section 3212 of the revised judicature act of 1961, 1961 PA 236, MCL 600.3212, that the following mortgage will be foreclosed by a sale of the mortgaged premises, or some part of them, at a public auction sale to the highest bidder for cash or cashier's check at the place of holding the circuit court in Van Buren County, Michigan, starting promptly at one o'clock in the afternoon on 17th day of July, 2025. The amount due on the mortgage may be greater on the day of the sale. Placing the highest bid at the sale does not automatically entitle the purchaser to free and clear ownership of the property. A potential purchaser is encouraged to contact the county register of deeds office or a title insurance company, either of which may charge a fee for this information.

The mortgage was made by MITCHELL FAMILY LIMITED PARTNERSHIP NO. SIX, a Michigan limited partnership, MITCHELL FAMILY LIMITED PARTNERSHIP NO. FIVE, a Michigan limited partnership, DECATUR PROPERTIES, LLC, a Michigan limited liability company, GROW BLUE, LLC, a Michigan limited liability company, K FARM HOLDINGS, LLC, a Michigan limited liability company, THOMAS R. MITCHELL, as TRUSTEE of the THOMAS R. MITCHELL TRUST u/t/a dated August 21, 2000 and K HOG HOLDINGS, LLC a Michigan limited liability company (collectively, "Mortgagor"), to GREENSTONE FARM CREDIT SERVICES, FLCA, a federally chartered corporation, having an office at 3515 West Road, East Lansing, Michigan 48823 (the "Mortgagee"), dated July 2, 2019, and recorded in the office of the Register of Deeds for Van Buren County, Michigan on July 12, 2019, in Liber 1686, Page 525 (the "Mortgage"). By reason of a default under the conditions of the Mortgage, the Mortgagee elects to declare and hereby declares the entire unpaid amount of the Mortgage due and payable forthwith. Mortgagee is the owner of the indebtedness secured by the Mortgage.

As of the date of this Notice there is claimed to be due for principal and interest on the Mortgage the sum of Thirteen Million Thirty One Thousand Eight Hundred Seventy Eight and 68/1000 Dollars ($13,031,878.68). No suit or proceeding at law has been instituted to recover the debt secured by the Mortgage or any part thereof.

OBITUARY

Margaret "Peggy" Schonwald

Margaret "peggy" Schonwald, of Kalamazoo, Michigan, passed away peacefully May 30, 2025. Born Nov. 3, 1937.

She is preceded in death by her husband of 25 years, Douglas Schonwald; parents, Herbert and Veta McGrew; brother, Richard McGrew; and sister, Diane McGrew Harless.

She is survived by her children, Steve Woodward (Manivanh), Chuck Woodward, Beth Hoburg (Carl), and Vickie Atwood-Romine (Bill); Doug's children, Natalie Taylor-Davis (Terry) and Debbie Hansen; grandchildren, Noel, Adam, Peter, Shelby and Taylor; great-grandchildren Hazel and Asher; and brothers, John and Stan McGrew.

Peggy had many fond memories of her 20 plus years working for the Paw Paw Medical group. She and Doug became avid travelers in their retirement with a long-desired trip to Europe in 2000.

After the passing of her husband, she became a snowbird and spent her winters in Alabama with Vickie and her family. Peggy's ability to have a conversation with anyone she met was her most glorious asset, turning any stranger into an acquaintance and many into friends; she had numerous in Michigan and added more in the south during her snowbird years.

Peggy was a lifetime member of the American Legion Auxiliary Unit 68, Paw Paw. She served as president for many years, along with several other positions. She was also a member of VFW Auxiliary and Fraternal Order of Eagles.

Peggy was an avid quilter and excellent with crochet. The entire family, as well as many friends, are blessed with beautiful items she made for them over the years. Additionally, she loved to dance, listen to music, and read.

A private service with family only will be held at a later date.
